## Chapter 1: Awakening

[Previous Chapter]

---

Recently random scenes and events kept flashing in Li Yun Xiao's mind. Sometimes he heard someone chanting something in his mind. The chanting sounds seem to be part of a scripture. As time went on, Li Yun Xiao learned more from the chanting sounds.

Eventually, Li Yun Xiao became unconscious due to the continuous mental instability. When he woke up from his blackout, the parts of the scriptures suddenly were connected and the expression of his eyes suddenly changed, becoming as deep and profound as the universe. He was finally awake.

Someone else possessed his body.

"Rebirth?" The body of Li Yun Xiao was in a classroom. He glanced out the window and saw a colossal statue which had the date of the current year engraved on it. "The year 1033 of Tian Wu, 15 years after I, Gu Fei Yang, died?"

The person controlling Li Yun Xiao was not himself, but Gu Fei Yang. He was once one of the ten most powerful Kings and Queens of martial arts, but somehow died during an incident at the mountain of Tian Dang. Many forces and sects seized this opportunity and started to fight against each other to expand and consolidate their power. The world was now in turmoil once more.

Li Yun Xiao smiled to himself, "I never expected this. Haha!" He laughed heartily. "I, Gu Fei Yang, am finally back!"

A voice came out of nowhere. "Li Yun Xiao!"

Someone threw a piece of chalk aimed at Li Yun Xiao's face.

Li Yun Xiao looked up, and casually snatched the chalk in midair, coldly looking at the teacher, Luo Yun Shang, who was right in front of him. By the looks on the teacher's face you could tell she was having a bad day.

Li Yun Xiao didn't really pay attention in class. It would be unusual if he actually

did. The teacher picked on him particularly. She needed some unlucky guy to vent her rage on.

Known infamously as an useless guy, Li Yun Xiao is the best candidate for teachers to pick on if they were ticked off for any reason. Whenever teachers were in a bad mood, people knew that Li Yun Xiao was going to suffer.

There were snickers and giggles in the classroom. Most of the students were anticipating what was going to happen to Li Yun Xiao.

Li Yun Xiao stared at Luo Yun Shang, still daydreaming. "Wow, this woman is actually sexy. If she wore red gown, silver boots, a blue cape, and had the frost of sadness, she would be another Red Lotus Martial Queen. Oh man, I think Red Lotus that woman would kill me if she knew what I was thinking!"

There was a hint of laughter and pervertness in his eyes. Luo Yun Shang looked into his eyes. She shivered like a docile bunny that was locked down by a tiger.

"What on Earth? This brat's expression... Is he laughing? What! I am a level four star martial master! Why am I feeling fear from this guy?! Aghh... I guess it's just because I got stuck on my project. My emotions are not that stable."

The fear in her eyes dissipated quickly. She regained her stability and smirked "Li Yun Xiao, we just talked about the refining of myst weapons. Can you tell me the number of the ways to refine the basic myst weapons?"

Luo Yun Shang was just teaching Refining\*. Although only a few people can become refining masters, knowing some basics of refining was important to be successful.

"Hmph, refining myst\* weapons, I was once a freaking stage nine refining master. Except for those old af guys, there is no one who can beat me at refining!"

"There are forty-eight ways to refine basic myst weapons."

"Forty-eight?!"

The classroom was silent for a moment, followed immediately by a burst of laughter.

"Is this guy still daydreaming?"

“I actually trusted him for a split second!”

“Hmph, if he really knew the correct answer I would already be the country’s protector!”

Meanwhile, Li Yun Xiao flipped through the textbook on his desk “The basic myst weapons has thirty-six ways to refine. Each of...”

He closed the book and looked at the cover, which was titled *The Basics of Refinery*, and the author’s name on the bottom: Yang Di.

“That brat! I told him everyday that there are freaking forty-eight ways to refine! He never listens to me! I’m not going to give him any lectures from now on!”

Li Yun Xiao ignored his classmates and continued, “There are thirty-six ways to refine in traditional ways. But sixty years ago, Gu Fei Yang found twelve more ways on refining, which was approved by the refining union, added on with the thirty-six ways. That is where the forty-eight ways came from.”

“Yeah right, how can he know more than master Yang Di?”

“I guess he’s just changing the topic.”

“Of course, Yang Di, as Gu Fei Yang’s student, has to know the basics of refinery!”

Mumbles start to fill up the classroom.

“Everyone SHUT UP! He’s right!”

Luo Yun Shang slammed the table.

Li Yun Xiao took a few looks of her. He smiled, “Four stage two star? She does have some Hun power. A high level refiner?”

There are nine stages of the mastery of martial arts, and each stage is split into nine sections called “stars”. At the peak of stage nine star nine, one can receive a title from the sage castle.

Luo Yun Shang was astonished and impressed by Li Yun Xiao. She stopped focusing on him and turned her attention to the class. “There were only thirty-six basic ways to refine until master Gu Fei Yang, with his genius refinery

techniques, made twelve more, which were approved by the union of refinery. But the twelve ways that Gu Fei Yang invented were too hard to be mastered by normal people. While writing the BASICS of refinery, master Yang Di did not introduce them in his book.

Not only was Luo Yun Shang astonished, the class was shocked too. Li Yun Xiao? Are you kidding me? The worst student in the class? Could answer a hard question like that correctly?

Luo Yun Xiao was a little excited. “A martial arts failure. Hmm, is Li Yun Xiao better at refinery!? If I can train him into a refiner! Aha! That would be way better than cultivating Yuan Qi and trying to improve at the martial art stages!”

Give him some other questions!

“Hmph, knowing some unusual things doesn’t mean you are a good student. I’m going to ask you another question. If you answered it right, you don’t need to learn from my lectures anymore. I will give you full credit for everything. But if you can’t, humph, stay in the tenfold g-force room and don’t come out until I tell you to! Can you tell me why do you add light crystal sand during the process of smithing a myst weapon?”

“Oh~~~~~”

“Six hours in the tenfold g-force room. Oh my!”

“Didn’t you see Ms. Luo was ticked off today?”

“Who on Earth knows why?”

“.....”

“Tenfold force?”

Li Yun Xiao shook his head. If it was before, he wouldn’t feel a thing even under a thousandfold g-force. With this body, Li Yun Xiao could barely make it through tenfold.

Luo Yun Shang thought Li Yun Xiao was scared of the punishment. “Garbage is always garbage,” Luo Yun Shang thought, “There is no way that he can answer my question.”

She regretted picking on Li Yun Xiao afterwards. I mean, it was her own

student, and Li Yun Xiao did do well on the last one. There was no reason for her to quench his passion for refinery.

But right when she was regretting her decision, Li Yun Xiao answered her question immediately.

“You don’t really need that light sand to refine myst weapons. It’s just something to increase the compatibility between different materials.”

“What?”

## Chapter 2: During Class

---

There was a long period of silence in the classroom. Nobody had any idea what Li Yun Xiao was talking about.

But Luo Yun Shang knew.

Her pupils widened, and she asked, "According to your theory, light sand crystal should be added as much as possible. Then why does the refining of scarlet copper and flaring gold fail if too much sand is added?"

This was the reason why Luo Yun Shang was ticked off lately. She had been experimenting on scarlet copper and flaring gold and always failed to make the two elements compatible during the refinery process. "Maybe Li Yun Xiao does know something," Luo Yun Shang thought to herself. She wasn't an examiner anymore. She was more of a student, waiting for Li Yun Xiao to answer her question.

"Although scarlet copper has the element of gold, it's more of the fire element, which can dissolve the flaring gold. A lot of refiners prefer to upgrade their scarlet copper with flaring gold because it is easy to dissolve. If you use light sand, then that's another story."

Li Yun Xiao looked at Luo Yun Shang. She seemed like a toddler trying to learn to talk. Li Yun Xiao thought of his disciples and smiled. "Because light sand has the water element, it can offset the fire characteristics in scarlet copper, making it harder to dissolve the flaring gold."

"AH!" Luo Yun Shang stiffened. Her mouth opened so wide you could put an apple in it, "How on Earth did I not think of that!" She started to imagine the refining process in her head.

Every single detail of refining started to show up in her head, to the end of the process. Her expression became more joyful, and there was a smirk on her face.

“Where is he?” Luo Yun Shang finally came back to her senses.

“He... He left the class,” a student said.

“WHAT! Skipping MY class, ignoring ME!”

“But, but you said that if he... he answered your question correctly, he wouldn’t need to listen to your lectures anymore...”

“BAM!”

Luo Yun Shang slammed the table, “Did anyone hear me say that?”

“...”

“Class dismissed! Tell Li Yun Xiao if I don’t see him for my next lecture, I am going to make him stay in the tenfold g-force room for three days!”

There was another slam, this time the door, and Luo Yun Xiao walked out of the classroom.

“What was that?” Du Feng asked after Luo Yun Xiao left. He ran up to Lan Fei. “Hey boss, do you know what’s going on?”

“How the frick am I supposed to know!” Lan Fei seemed to be the leader of a group, and people started to crowd around him. “The brat knows a lot about refinery.”

“No way...” Shang Guan exclaimed, “How can that worthless punk know that much about refinery? What should we do?! Refiners seem to have a high status in this society. I don’t want to offend a refiner!”

Lan Fei slapped Shang Guan’s face.

“Refiner? Hmph! What refiner! He just read some books! Refining requires more innate talents than training in martial arts. He can’t even open one chakra to utilize. How can he be a refiner?”

His small group agreed with him.

Lan Fei walked to the front of the classroom. “If anyone tells what Ms. Luo just said, you’ll know what happens after school!”

There were sixty people in the classroom. Everyone was one of the descents of the various ministers in the Water kingdom that Li Yun Xiao was living in. There

are two different parties in the kingdom, and the students in the classroom were naturally divided into two groups against each other according to their ancestry.

“Hey, you guys!” Lan Fei pointed at Qin Ru Xue, Chen Zhen, and Han Bai. “If Li Yun Xiao comes for the next class, the first people I’m gonna beat up are you guys.”

The people that Lan Fei pointed to were Li Yun Xiao’s friends. You can say that they are against the party that Lan Fei was in.

“So what! I’ll tell him what the teacher said! What are you going to do to me then?” Qin Ru Xie shouted back.

“Princess Qin, I don’t care if your father is the king. I just opened my seventh chakra. With my talent, I am sure he wouldn’t care.”

Just when Qin Ru Xue wanted to punch Lan Fei, Han Bai stopped her, “We are a little weak compared to him. It doesn’t matter. Just let it go.”

On some street~~~~~

“What is this garbage body! Now I know why I was the weak guy! I can’t even conglomerate any Yuan Qi in my chakras! Aghhhh. I have to try to improve my body conditions.”

He up to a building. “Water Kingdom’s refinery union? Oh, that brat Yang Di was here before. Let me see if I can find him. Everything would be way easier if I found him.”

The refinery union, a strong force dispersed throughout the whole Tian Wu continent. Under normal circumstances, no one would really try to offend refiners.

Which he just did.

“Where the f\*\*\* is Yang Di? Tell him to come here.”

“Uh sir...”

## Chapter 3: Refinery Union

---

“Who’s kid is here, get him out!” a refiner shouted.

A servant came. “Uh... Sir, what do you want?” The servant’s name was Lu Yao. She had been helping the refining union for years, which gave her enough experience to not shun anyone immediately. The little guy in front of him could have been the son of the head of the refinery union.

“I need Yang Di right now. Is he here?” Li Yun Xiao was still in the refinery union.

“Yang... Yang Di?”

“What on earth?” Lu Yao bit her tongue. She looked at Li Yun Xiao. “He doesn’t look familiar, right? Is he the prince of water kingdom?”

She panicked, “You mean the ex-chairman master Yang Di?”

“Ex-chairman? He left already?!”

“Master Yang Di became a stage four refiner twenty years ago. Now he is at the headquarters of the refinery union.”

Li Yun Xiao sighed.

His body is already fifteen years old, and he had already missed the golden days to train. If he stayed at this level even longer, it would be impossible to be as powerful as he once was as Gu Yun Fei.

“I have a list of herbs. Can you help me find some?” Li Yun Xiao handed a list to her.

This body has to be remedied before it is too late!

Li Yun Xiao was once the master of martial arts and refinery. If he said he was second, no one could say they’re first. Once one of the ten of the most powerful kings of martial arts, Li Yun Xiao also was one of the seven most skilled refiners of

the union.

Lu Yao scanned the list, and smiled, “Sir, I have served in the refining union for almost four years. I haven’t even heard of any of those herbs before.”

This made Li Yun Xiao start to worry; he needed to cleanse his chakras so that he could train his body. Considering that this refinery union was only a division of the union, Li Yun Xiao substituted some rare herbs with more common ones. Even so, the division didn’t seem to have adequate supplies to serve his needs.

“What are you doing? Lu Yao?”

A man clad in black robes walked by. There was a crest badge on his shoulder. A red line was drawn over the badge, indicating that he was a stage one refiner.

Every person that he walked past bowed to him, showing their respect whether they were sincere or not. The respect was more because of the badge on his shoulder. As for the man in the black robe, no one really paid any attention.

Not only does being a refiner mean that the person can refine and make certain potions, but it’s also about the social status that comes with it. With this badge on the black robe guy’s shoulder, he could receive top treatment everywhere he goes in the Tian Wu continent.

Lu Yao turned around and bowed, “Master Jia Rong, this gentleman gave me a list of herbs to let me help him collect.”

Jia Rong skimmed the list. “What is this?” He crumpled the paper up and threw it away. “Master Liang needs you to help him.”

Lu Yao heard that it was master Liang who needed her assistance, so she immediately ran away.

“Hmph, even master Jia Rong didn’t know the herbs on that list! Why did I waste my time with that Li Yun Xiao guy.”

Li Yun Xiao was pissed off. “When I was Gu Yun Fei, people had to beg me for my refinery prescriptions. And you? You threw it away as if it was garbage,” Li Yun Xiao thought to himself. He looked at Jia Rong, “So you’re Jia Rong? You just got to stage one refiner for seven days, right?”

“Who are you?” Jia Rong asked, “Everyone knows that I got to stage one seven days ago.”

“Really, did you really?”

Jia Rong’s pupil dilated. He looked around, making sure no one is listening, and asked, “What do you mean?”

Li Yun Xiao looked at his hand, “You have some special gray dots on your finger tips. It’s obvious that you used the dark wind stone to level up on your refinery skills. It’s gives a temporary boost, but the side effects of it are really dangerous. Hmm, you smell like the fire orchid. Did you attempt to resist the side effects of the dark wind stone? ”

Jia Rong froze out of shock.

“You smell sort of fishy. You were using tiger sulfur stone for your refinery examination, right?

Jia Rong didn’t interrupt him.

“You should feel massive pain at the middle of your chest, your thigh, your ankles, and your knees. Am I not right?”

You can hear Jia Rong’s jaw drop to the ground. Sweat covered his face.

Li Yun Xiao shooked his head. “Ah, what a waste of such a talented refiner. The only way to survive from the stone is to cut off your hands, Jia Rong. You also need to destroy your dantian.

“Shut... shut the f\*\*\* up!”

“Oh well then, I wanted to tell you a way to get rid of the situation, but I think I should shut up.” Li Yun Xiao shrugged, sighing.

“You have a way to fix it?” Jia Rong stepped up to Li Yun Xiao and grabbed him by the arm. “Tell me, tell me right now!”

Jia Rong had recently been doing what Li Yun Xiao was saying. He knew it was illegal but tried it anyways to pass his stage one refinery test. He tried so many ways to fix the situation but the effects just got worse. Whatever the kid said could possibly be Jia Rong’s only hope.

“Please tell me! Tell me right now!” Jia Rong shook Li Yun Xiao by the shoulder, hoping he would give him an answer.

“Ah, master Jia, I can’t find my list. Where did it go? Did someone crumpled it up? Where did it go?”

“Here, here,” Jia Rong immediately picked up the list. People nearby him were sending weird glances. Some were mocking him for being so obedient to a fifteen-year-old.

“I need to get the remedy first. I will one day have my revenge for this, you brat!” Jia Rong thought to himself.

After Jia Rong retrieved the list, he uncrumpled it and handed it to Li Yun Xiao.

Li Yun Xiao blew his nose in it, then threw it on the ground. “I need ten of each of the herbs on the list! Find me in the Jolan academy when you are done!”

“You...” Jia Rong suppressed his anger. “What is your name?”

“My name is Li Yun Xiao!”

# AO Chapter 4

## Chapter 4: In front of the school

---

Li Yun Xiao looked at Jia Rong. “Don’t try to get your revenge on me. I’m telling you now, most of the people who tried are not alive anymore. I hope you will cherish your chance. Oh and by the way, you probably want to get my stuff in four days. Your hand is probably going to stop working after that. If your hand doesn’t work, without a stage nine refiner, which I doubt you can find, don’t expect to be a refiner in this lifetime.”

Jia Rong was shaking uncontrollably. “Four days? I haven’t even heard of half of the herbs on the list! How am I supposed to know if you are fooling with me!”

Li Yun Xiao smiled, “Well, that’s your problem. Find some leaves of moon bamboo and some wolf ginseng to relieve your pain. Those herbs can still preserve your right hand for two more days. Hope you get lucky. See ya~”

Jia Rong was thinking of the list that Li Yun Xiao needed, and the next second, Li Yun Xiao was gone. Jia Rong pinched his right hand. He couldn’t feel a thing.

“He’s just a normal kid. Neither a refiner, nor a fighter. How can he make me feel fear?” Jia Rong clenched his fists. “I’ll let you live for another few days. If I get the way to cure my hand, I’ll get my revenge! Jolan academy! Li Yun Xiao!”

~~~~~

At the third floor of the refinery union

Liang Wen Yu was talking to Lu Yao. “Here are ten pounds of crane root and pale phoenix dragon lotus. Give it to the minister, Lang Hon, immediately.”

“Crane root? Pale phoenix dragon lotus?” Lu Yao wasn’t really paying attention. “Those really exist?”

Liang Wen Yu asked, “What happened? What are you saying?”

“Sorry, master Liang. A moment ago, a kid gave me a list and needed my help

to find the herbs for him. I thought he was just fooling around because I didn't know any of the things on the list. Crane root and pale phoenix dragon lotus were on the list."

"A kid?"

"Those herbs are used to increase the strength of people who are culturing and learning martial arts. Where's the list?"

"Jia Rong told me to come to you, so I think he returned the list back to that kid."

"Oh," Liang Yu Wen was a bit disappointed, "Do you still remember anything on it?"

"Hm... milk of vacuum, wet women flower, levitating bud, strange feathery flower..."

As Lu Yao listed most of them out, Liang Wen Yu's doubt turned into astonishment, and then into shock.

He was utterly shocked. Although Liang wen Yu himself has not heard of half of the herbs on the list, from the herbs that he knew, he found a really intricate relationship between them.

"It has to be a really good potion to increase the strength of cultivators!" Liang wen Yu thought to himself.

"Find that kid immediately! It's a powerful mixture!"

"What, sir?" Lu Yao couldn't believe what she was hearing. "Are you sure? I think that kid was just playing around."

"No, no. Not at all. No one is playing around. Here." Liang Yun Wen handed her a bag full of money. "Ask people around this area and find him. This is for your expenses."

"Yes, sir!"

Lu Yao grabbed the bag and ran out of the union building immediately.

Li Yun Xiao was walking in the streets as usual, trying to see what was in his storage ring.

“What kind of garbage is this! A book, some stupid bottle...” Li Yun Xiao was throwing these away while he was walking until he found a black sword.

“This looks nice. About fifty pounds. Ga!~~ Why is this so heavy now! I miss my old sword so much. Sigh~ where did it go...”

“Well before I open my seventh chakra, I’ll be using this.” Li Yun Xiao was walking towards Jolan academy with his sword resting on his shoulder. “After I have some yuan qi, I’ll make a myst weapon myself.”

“What are you guys doing? Chen Zhen, Han Bai?” Li Yun Xiao was already at the front gate of the school.

“Where did you go, I and Han Bai were searching everywhere for you! Dude, today Ms. Luo was so mad at the end of the lecture, she said you...”

“Chen Zhen, what do you think you’re doing!”

The shout came from Du Feng, who was behind Chen Zhen. “Do you want to oppose my boss, Lan Fei?”

“Shut the \*\*\*\* up,” Chen Zhen shouted back. “I’m just passing on what Ms.Luo said to Li Yun Xiao. Li Yun Xiao, Ms. Luo said...”

“Stop talking!” Du Feng started to form the eagles hand, trying to attack Chen Zhen.

Chen Zhen’s face immediately turned pale. He backed away as quickly as he could. Du Feng had already opened four chakras, and he had way much more yuan qi then Chen Zhen.

Han Bai, who had also opened his fourth chakra already, came to Chen Zhen’s rescue and saved him from the attack.

“You dare oppose us!” Another person from Lan Fei’s gang came by. His name was Luo Jie. “I just opened my fifth chakra last week! Do you want to be my first opponent? I’ll teach you the difference between one chakra!”

“Haha, Luo Jie, you came just on time! You two,” Du Feng pointed at Chen Zhen and Han Bai. “I’ll give you three minutes to \*\*\*\* off!”

Students were gathering around the fight.

“Well, show me how you’re going to make me \*\*\*\* off!” It was Qin Ru Xue who was talking. “What if I told him right now? Hey Li Yun Xiao, Ms. Luo told you to come to her next lecture, or else you will be punished!”

Du Feng and Luo Jie saw that it was the princess of the Water kingdom talking. Of course they couldn’t offend the princess. “You guys are lucky today! We’re leaving. You better shut your mouth next time!”

“Oh, so it’s just the ten-fold force punishment thing?” Li Yun Xiao wanted to cultivate and train in there anyways. “After the trouble is gone, you guys want to leave now? In your dreams!”

“What? You got a problem, you piece of garbage?” Du Feng stopped his tracks.

Li Yun Xiao grabbed his sword, “I don’t have any problems, I just want to know what’s the difference between a five chakra cultivator and a zero chakra cultivator.

Everybody was shocked for a second. Qin Ru Xue shouted, “Li Yun Xiao! What do you think you are doing!”

“Interesting!” Du Feng looked at Li Yun Xiao. “If you want to be defeated that badly, I’ll help you!”

Right when he finished speaking, Du Feng sprung out with his fist prepared, aiming at Li Yun Xiao’s head.

“Trash doesn’t have a right to talk!” Du Feng thought.

His smiled widened as the distance between him and Li Yun Xiao shortened, especially when he thought of the social status of Li Yun Xiao: he is the one of the ministers’ grandson!

“Watch out!” Chen Zhen, Han Bai, and Qin Ru Xue closed their eyes.

Li Yun Xiao was just a normal guy. How can he take a blow from a person that had already opened his fourth chakra?

One meter.

Fifty centimeters.

Ten centimeters.

One centimeter.

“Bam~!”

Everyone heard a loud thump. Du Feng’s fist was on Li Yun Xiao’s head, but Li Yun Xiao did not seem to feel anything. There were no signs of pain on his expression.

Half a centimeter! There was still half a centimeter of distance between Du Feng’s fist and Li Yun Xiao’s head!

Btw: I and Buzzbanana are different translators working on different books. Buzzbanana mainly works on Stunning Edge. There is no need to worry if Ancient One would effect the Stunning Edge updates(who cares about Ancient one anyways? Jk) , although she helps me a lot on the grammar things in Ancient One and gives me tips on translating to make the chapter more coherent, since I am really inexperienced. Anyways, no need to worry! Have a nice summer!

# AO Chapter 5

## Chapter 5: Kicking the balls

“AHHHHHHHHHHH!~”

A shriek came out of Du Feng, almost chilling the bones of everyone nearby. You can tell he was in deep pain.

“Du Feng!”

As Luo Jie shouted, Du Feng dropped to the ground, covering his balls with his hands.

Luo Jie clenched his fist, “Li Yun Xiao! How can you do that to your classmate!”

“Hmph, I didn’t do anything! Everybody saw that Du Feng was charging towards me, right? I just simply raised my knee, and somehow that idiot still ran into me!”

“You!...”

Luo Jie couldn’t say anything. Li Yun Xiao was actually right.

“But how?”

Everyone had the same question.

“I don’t care! You are going to pay for whatever you did to Du Feng!” Luo Jie suddenly disappeared. The next second, Luo Jie’s fist was already near Luo Yun Xiao.

“That brat seems to be in trouble! This person is a high level cultivator!”

“High level cultivator? After a person opens his or her fifth chakra he or she can become a high level cultivator. How many did he open?”

“Well it seems that Li Yun Xiao is definitely going to taste his defeat!”

“Li Yun Xiao! Run!” Han Bai ran towards Luo Jie in an attempt to slow him down.

A clatter came out of nowhere.

Li Yun Xiao grabbed his sword and pointed it to Luo Jie, who was charging at him.

“Bam!”

Luo Jie’s fist came in contact with the sword

“Ah!~ My fist!~”

Another shriek.

Luo Jie clenched his fist. Blood was dripping on the floor. Flowers of red were all on the ground, Luo Jie felt bone-chilling pain from his hand.

“Wtf?” Han Bai stopped, looking at Li Yun Xiao awkwardly.

“What is happening”

“How can someone be so dumb. Even if Luo Jie is a cultivator that can use yuan qi, he can’t use his flesh to fight against a sword.”

“I think there is something fishy, but Li Yun Xiao that brat does not have yuan qi on him. He can barely even lift up his black sword.”

“Yeah, something has to be wrong!”

Li Yun Xiao was once a nine stage cultivator. Calculating where Luo Jie’s fist is going to go would be a piece of cake for him. He just needed to raise his sword to the right spot at the right time.

“Bullying my friends? I will take care of your hands!” Li Yun Xiao readied his sword and prepared to chop Luo Jie’s hands off.

Luo Jie felt danger covering him, almost making him suffocate. He wanted to dodge Li Yun Xiao, but he felt powerless, weak. He didn’t feel that way even in front of a stage one cultivator.

“No~!”

Luo Jie’s left hand was gone. Blood splattered everywhere on the ground around him.

Li Yun Xiao looked at Du Feng, “And you piece of garbage! You found the

wrong person to offend!”

“No! Master Li! Spare me!”

The next second Du Feng’s chakra on his hand was broken.

“Li, Li Yun Xiao, is it really you?” Qin Ru Xue was still in shock.

“Li Yun Xiao, did you open all your chakras?” Chen Zhen asked.

Li Yun Xiao shook his head, “How can it be that easy?”

“Then what is that?” Chen Zhen pointed at Luo Jie and Du Feng, who were moaning in agony on the ground.

“Did you not see they ran into me themselves?” Li Yun Xiao smirked.

“But... But...”

“No buts.” Li Yun Xiao laughed, “ You will know later. If the academy wants to punish me, there are witnesses everywhere. Tell the school officials to ask them for information.” He walked to his dorm.

“What...” Chen Zhen was definitely not convinced. Not only did Li Yun Xiao’s strength changed, but his charisma and aura also changed.

“Of course we would be your witnesses!” Qin Ru Xue shouted, “The descents of Luo and Du are always opposing your descent. You know they are going to do something to you.”

“I don’t care.” Li Yun Xiao walked away to train.

Qin Ru Xue was somehow blushing, “Hmph! How can he not care with all that trouble! He changed so much!” She stomped on the floor.

“Although Du Feng and Luo Jie are the descents of powerful families, those two are not the core pupils. Yun Xiao is the son of the army general! There is no way Li Yun Xiao would get revenge, right?”

“In Jolan academy? Hmph! I know they are powerful, but they are not enough to offend the academy!” Chen Zhen shared his thoughts.

Han Bai sighed, “The people in the family can’t do anything, but the academy can’t do anything if students try to kill Li Yun Xiao.”

“You mean Lan Fei?”

Han Bai nodded, “ Everyone knows that Du Feng is one of Lan Fei’s gang members. Lan Fei already opened his seventh – chakra and is almost a stage one cultivator!”

Their expressions changed. There is a big difference between a stage one and stage zero cultivator. If Lan Fei needed to take revenge, there were be no way for Li Yun Xiao to survive.

They tried to find solutions but ended up with nothing. It was getting late and everyone went back to train.

In Jolan academy, the students are either geniuses or the royal descents like Li Yun Xiao.

The descents of Li is a big force in the water kingdom. Although Li Yun Xiao is a useless brat in cultivating, he still has a private dorm and a training room .

“I need to train this garbage as fast as possible! The tyrant body refining technique! Just for me! Got it right before I died in Tian Dang mountain in my previous life!”

He started to train for the technique. A weird aura started to disperse everywhere.

“S\*\*t!”

Li Yun Xiao lost his balance and dropped on the ground. He felt massive pain in his head.

PS: Sorry for the delay of the update of the chapters. I have to learn stuff during the summer.
